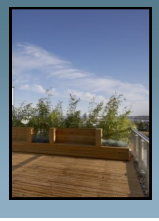
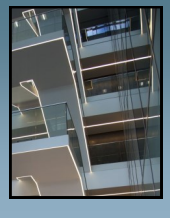
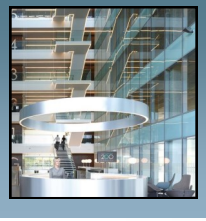
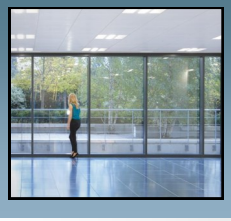
First Central 200







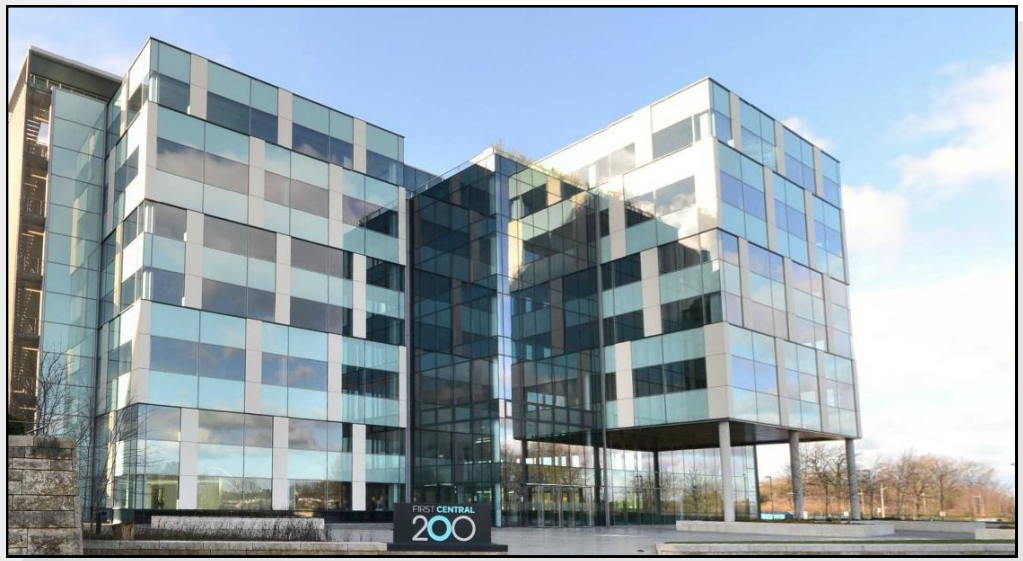


Project:
First Central 200

Location:
Park Royal, London

M&E Contractor:
Derry Building Services

Completion:
September 2012



Set in 45 acres of mature landscaping, FC200 provides seven floors of Grade A office accommodation just outside London's West End. A full height atrium provides a dramatic entrance to a total space available of 162,000 square-feet.

A *TREND* Building Energy Management System controls the primary plant boilers, chillers and pumps, and also integrates packaged controls for Air Handling and Fan Coil Units via Modbus and BACnet respectively.
